DETAILED ACTION

In the Response to Restriction Requirement dated October 27, 2003, Applicant has elected the invention of the Group II (claims 7-16) drawn to a method, and canceled claims 1-6 without waiver, prejudice or disclaimer is acknowledged. Accordingly, claims 7-16 are pending in this application.

Allowable Subject Matter

Claims 7-16 are allowed

The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the limitation recited a method of manufacturing a mask read-only-memory (ROM), comprising the steps of removing the second dielectric layer and the stopping layer to expose the first dielectric layer using the first photoresist layer includes a first line/distance pattern as a mask; forming a second photoresist layer includes a second line/distance pattern over the substrate, and the second line/distance pattern extends in a direction that differs from the direction of extension of the first line/distance pattern; removing a portion of the second dielectric layer and the first dielectric layer to expose the substrate and the stopping layer using the second photoresist layer and the stopping layer as an etching mask; forming a gate oxide layer over the exposed substrate; and forming a word line perpendicular to the direction of extension of the buried bit line to construct a plurality of coding cells, wherein the coding cells having a stack layer thereon are at a first logic state while the coding cells having a gate oxide layer thereon are at a second logic state as claimed in independent claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
